CONFIDENTIAL

01 · CONTEXT

Objective & Data Overview

OBJECTIVE

Grow BrightTV's subscription base

- Identify user & usage trends across the BrightTV base.
- Pinpoint factors that influence content consumption.
- Recommend content for low-consumption days.
- Propose initiatives to grow the subscriber base.

DATA SCOPE

Viewer transactions & user profiles

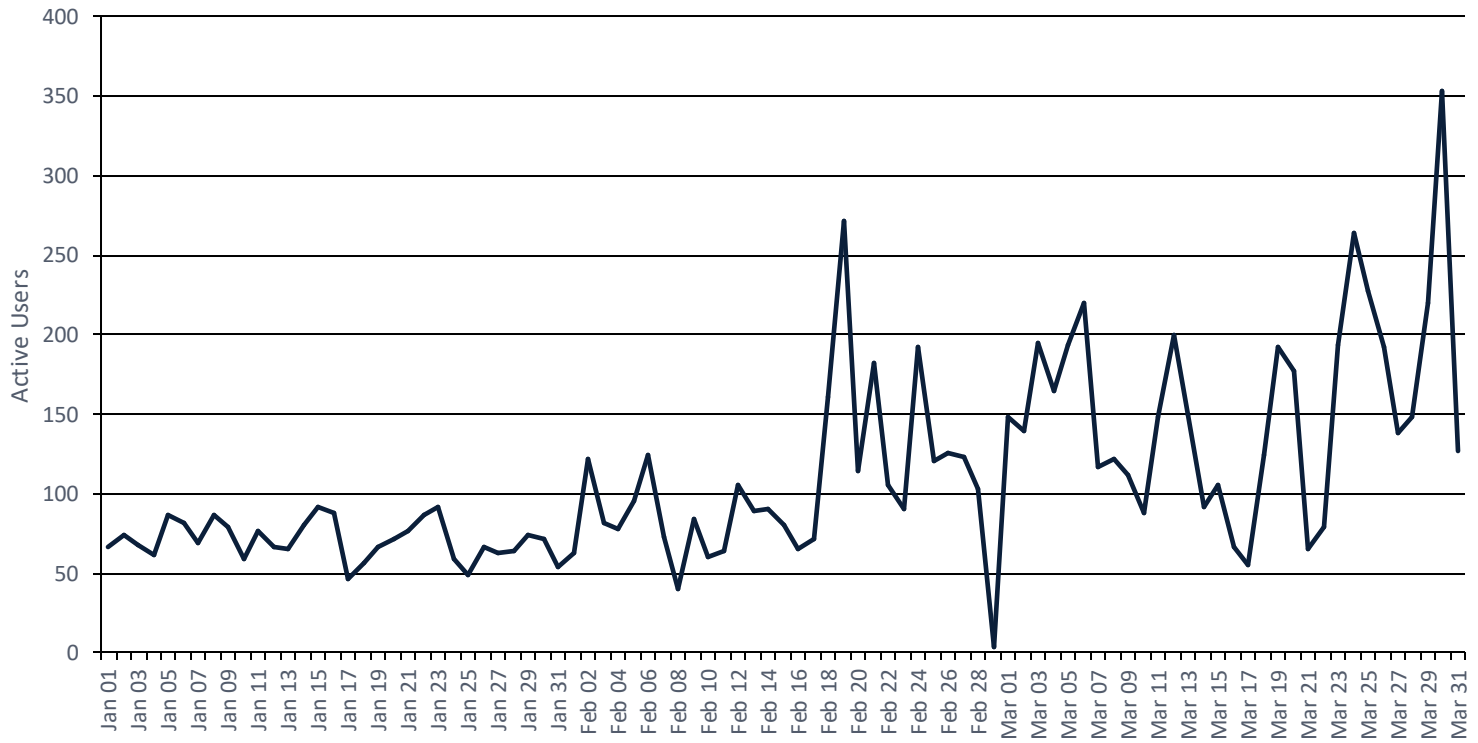
10,000 VIEWING SESSIONS	**19** CHANNELS
9.1 min AVG SESSION	**Jan–Mar '16** OBSERVATION WINDOW

Timestamps converted from UTC → SA time. One row = one session.

02 · USER TRENDS

Daily Active Users

Daily Active Users — Jan to Mar 2016



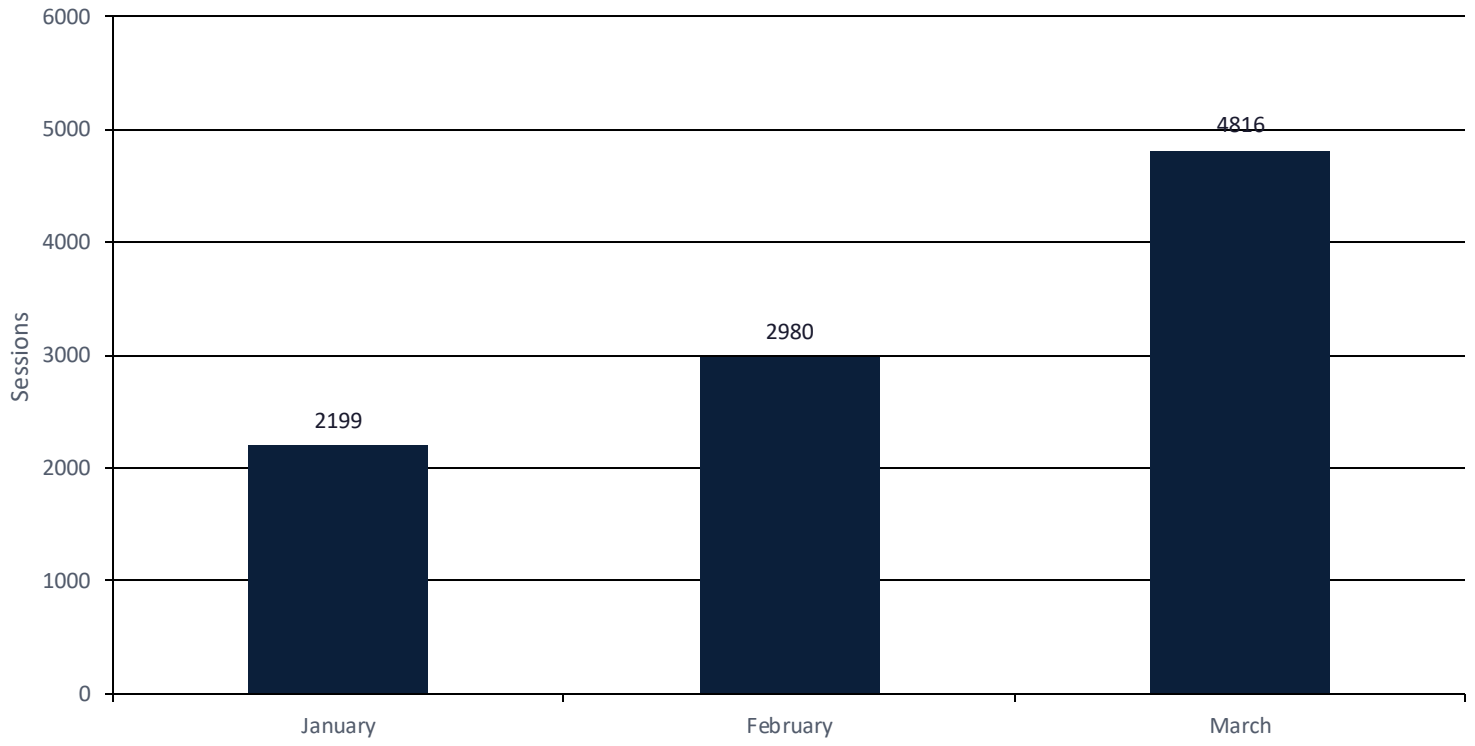
KEY INSIGHTS

- Daily users grew ~3x from Jan (avg 71) to Mar (avg 158).
- Sharp spikes align with major sporting events (cricket weekends).
- Highest day: 30 March = 353 users — a single-event peak.
- Trend signals strong responsiveness to live, time-bound content.

02 · USER TRENDS

Monthly Growth Trajectory

Monthly Active Users



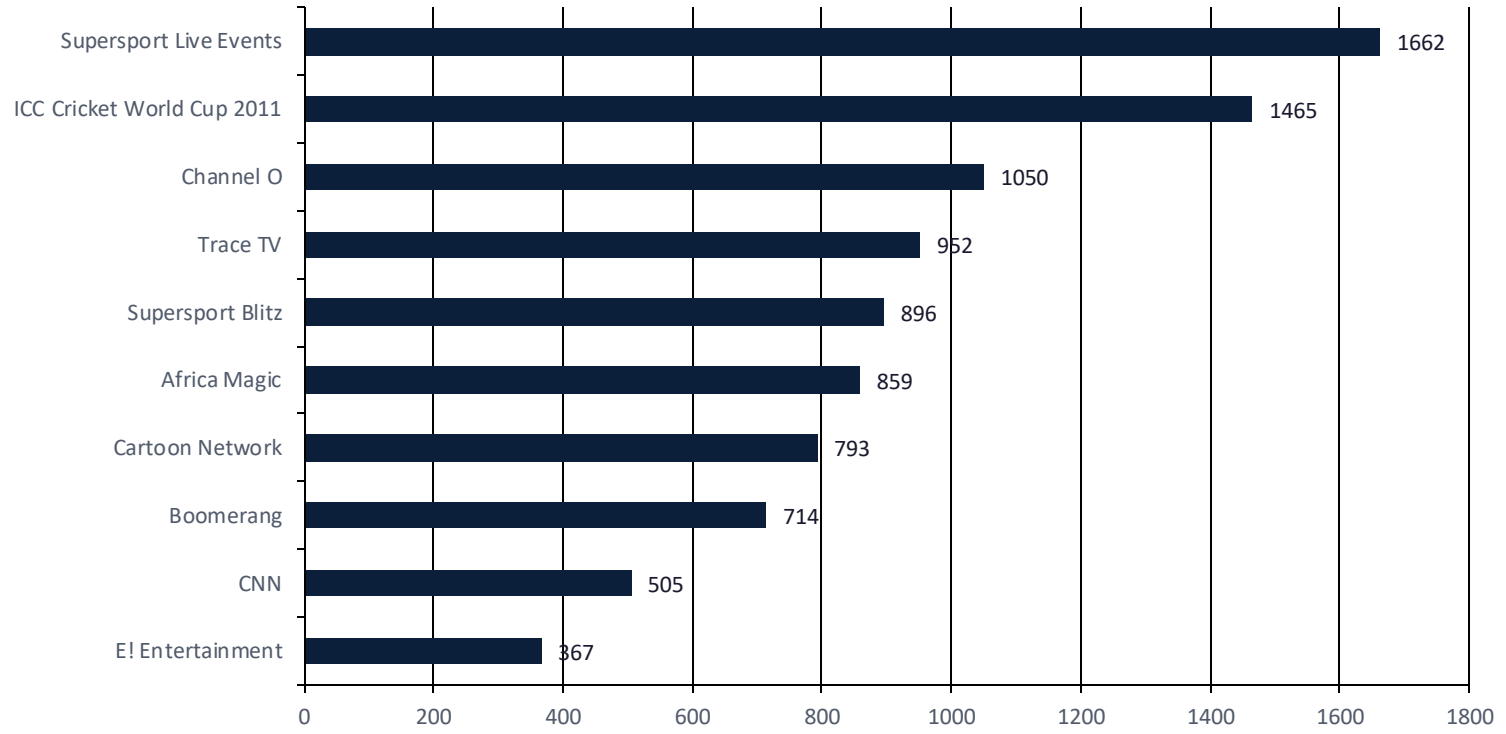
KEY INSIGHTS

- Sessions doubled from Jan (2,199) to Mar (4,816) — +119%.
- February (+36%) and March (+62%) show acceleration, not noise.
- Momentum suggests product-market fit improving month-over-month.
- Sustain via consistent flagship event programming.

03 · CONTENT

Channel Share of Users

Sessions by Channel (Top 10)



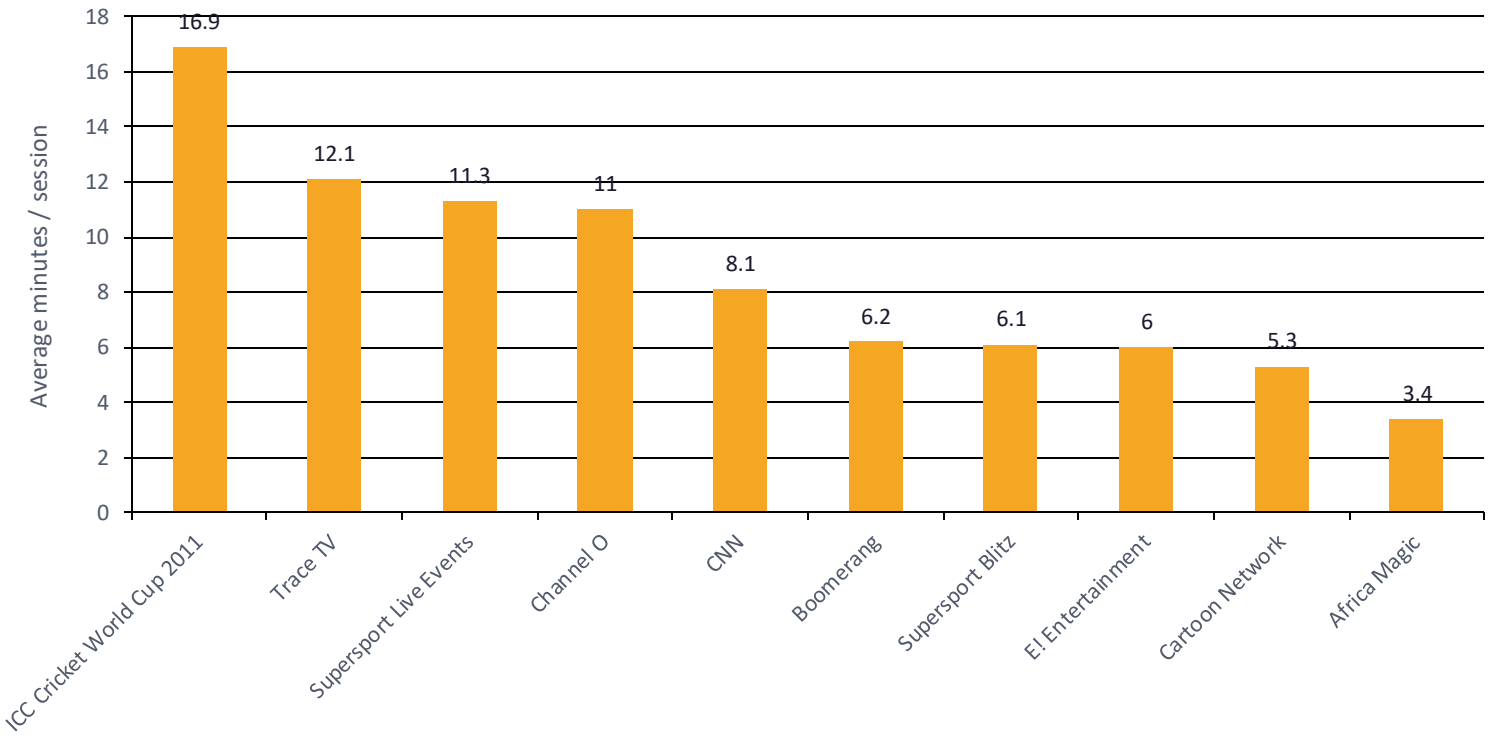
KEY INSIGHTS

- Top 4 channels (Supersport Live, ICC Cricket, Channel O, Trace TV) drive 51% of sessions.
- Sport dominates: 4 of top 5 channels are sports-led.
- Music & general entertainment (Channel O, Trace TV) anchor non-sport demand.
- Long tail of 9 channels collectively account for <10% — pruning candidates.

03 · CONTENT

Channel Engagement Depth

Average Session Length by Channel (Top 10 by users)



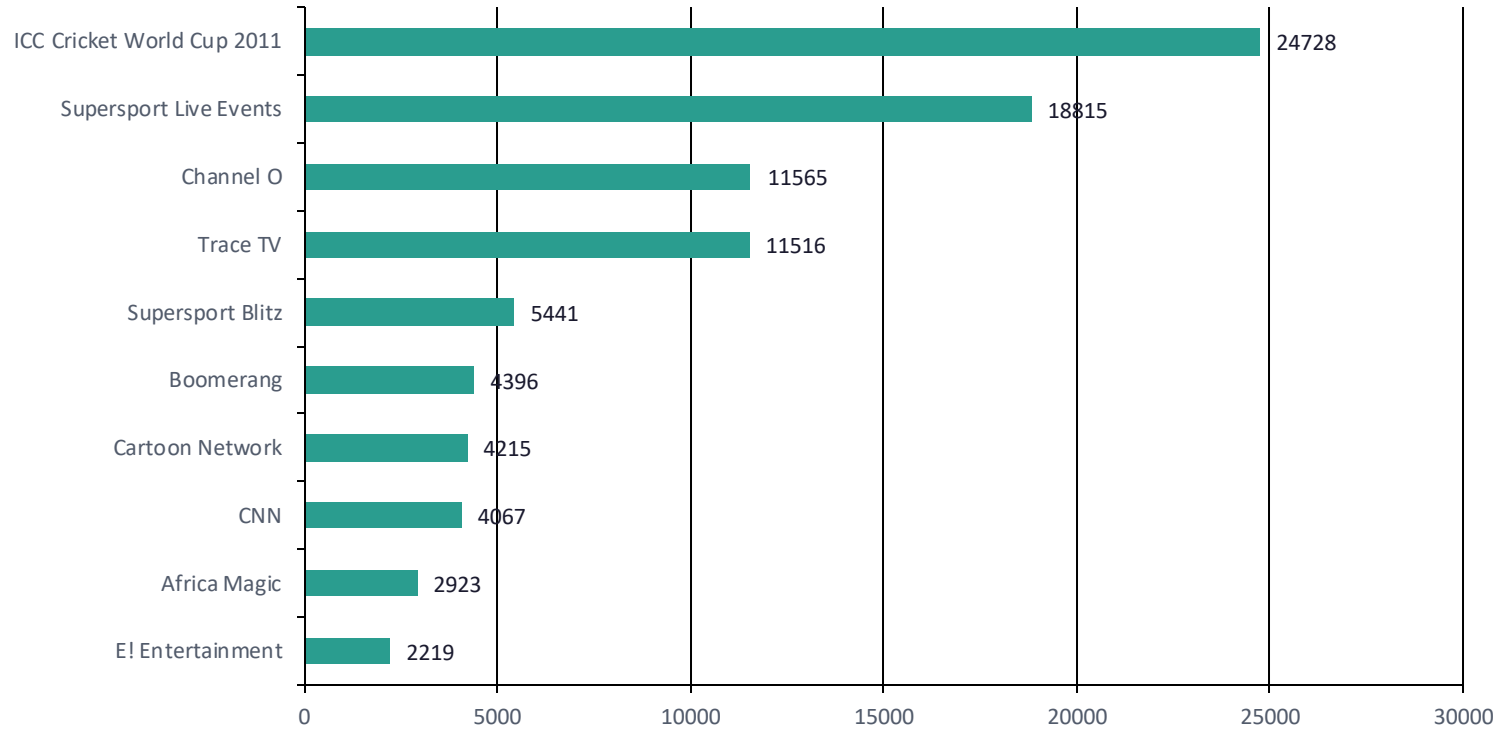
KEY INSIGHTS

- ICC Cricket leads engagement at 16.9 min/session — 85% above platform average.
- Trace TV, Supersport Live and Channel O all exceed 11 min — premium 'sticky' inventory.
- Africa Magic shows scale (859 users) but shallow engagement (3.4 min) — content fit gap.
- Engagement and reach are not the same — invest in both depth and breadth.

03 · CONTENT

Total Watch Time by Channel

Total Watch Time by Channel (Top 10, minutes)



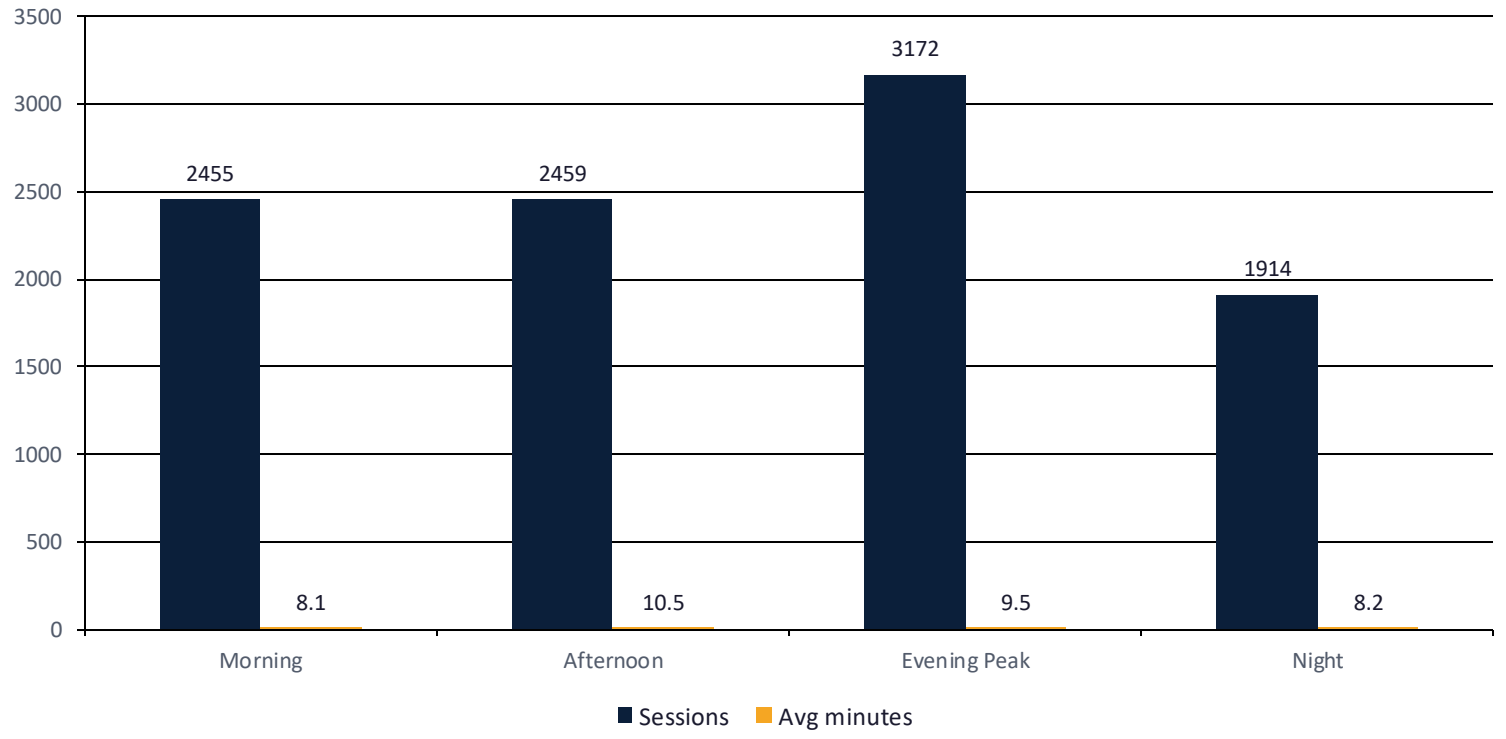
KEY INSIGHTS

- ICC Cricket commands 27% of all watch time — single biggest content asset.
- Top 2 channels (cricket + supersport live) = 48% of total minutes watched.
- Watch-time concentration creates revenue dependency on sports rights.
- Diversify with high-engagement non-sport bets (e.g. Trace TV, Channel O).

04 · WHEN

Time-of-Day Consumption

Sessions & Avg Engagement by Time of Day



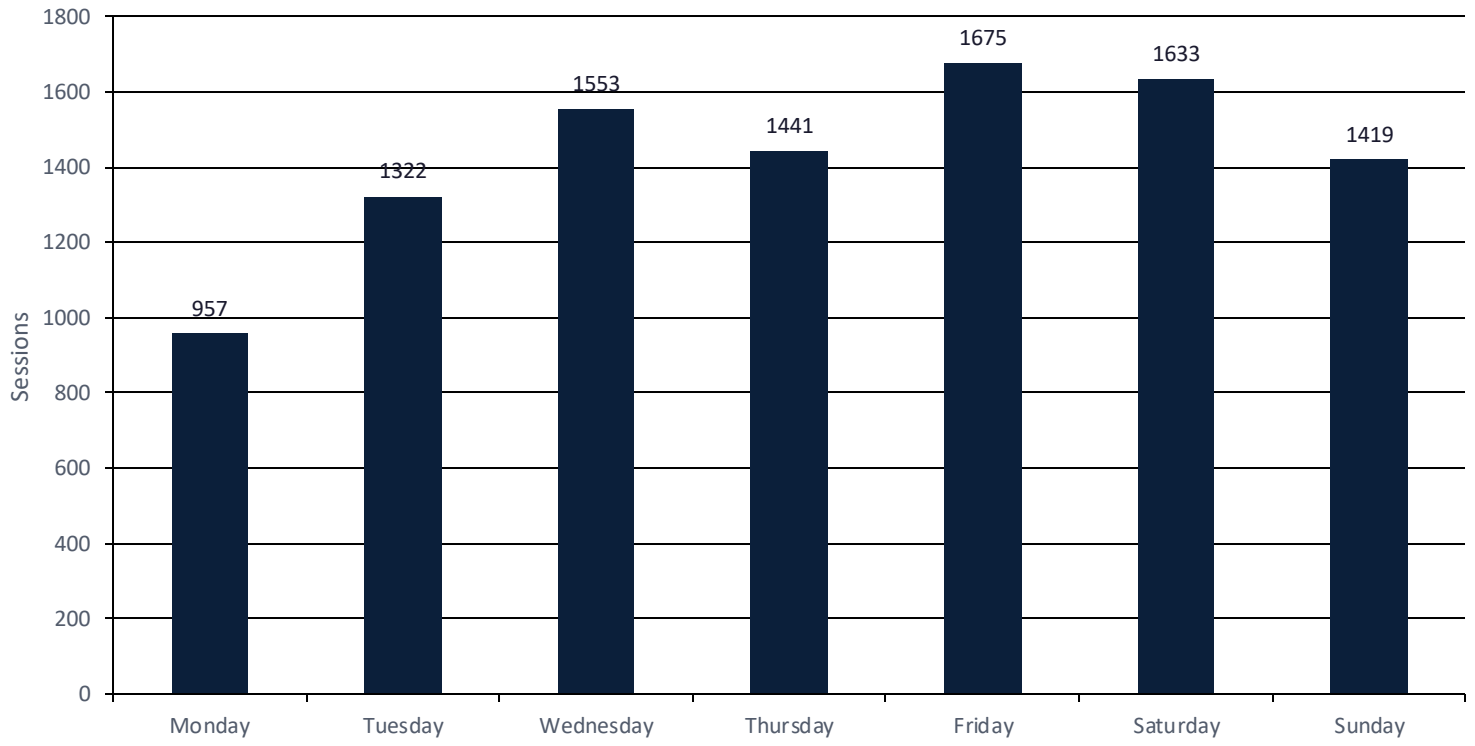
KEY INSIGHTS

- Evening Peak (5–9pm) is the busiest window — 32% of sessions.
- Afternoons deliver the longest sessions (10.5 min) — high attention.
- Night-time underperforms on both volume and engagement.
- Schedule premium content for the afternoon-into-evening corridor.

04 · WHEN

Day-of-Week Patterns

Sessions by Day of Week



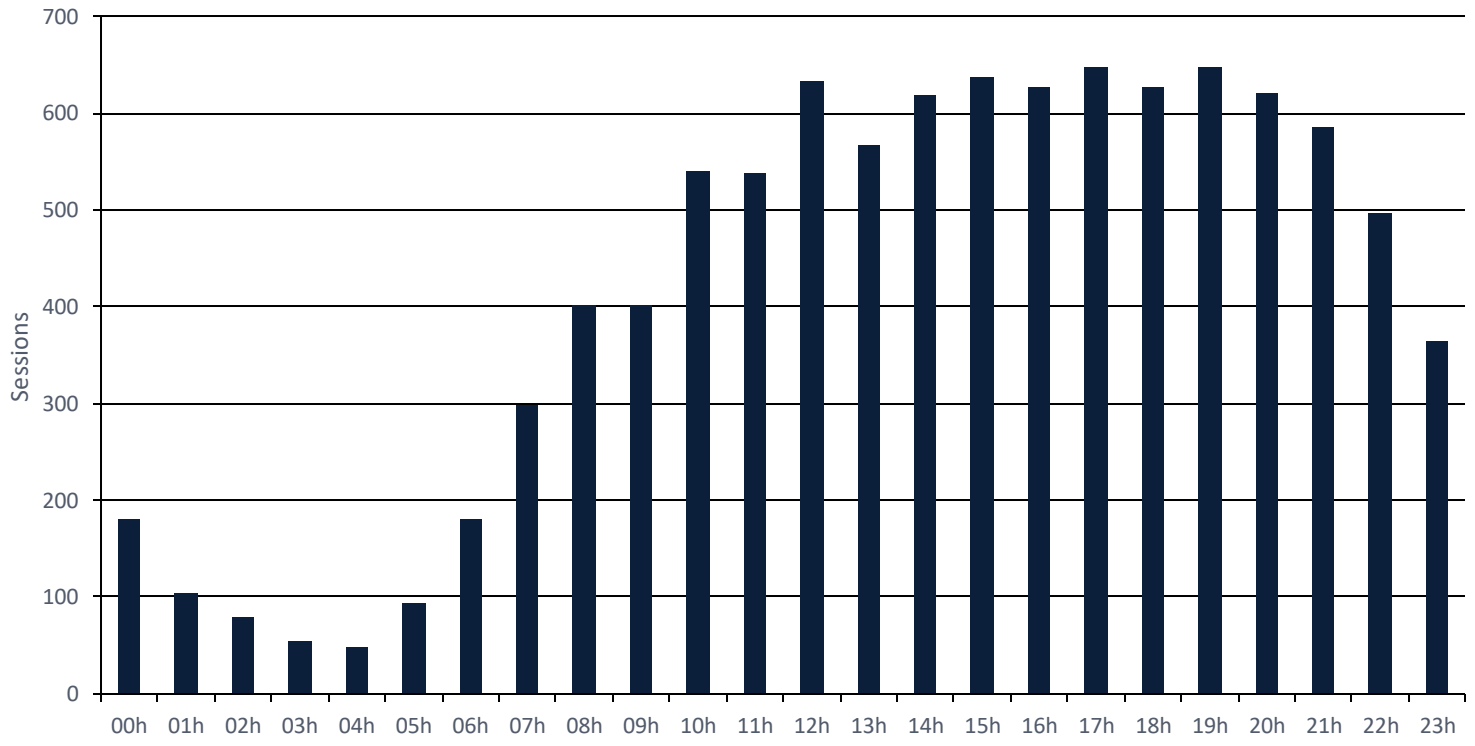
KEY INSIGHTS

- Friday & Saturday lead volume; Saturday wins on engagement (10.9 min).
- Monday is the weakest day — 957 sessions vs 1,675 on Friday (-43%).
- Mid-week (Tue–Thu) is stable — reliable inventory for ad packaging.
- Monday is the priority for new-content launches & re-engagement campaigns.

04 · WHEN

Hourly Consumption Curve

Hourly Consumption (00h–23h, SA Time)



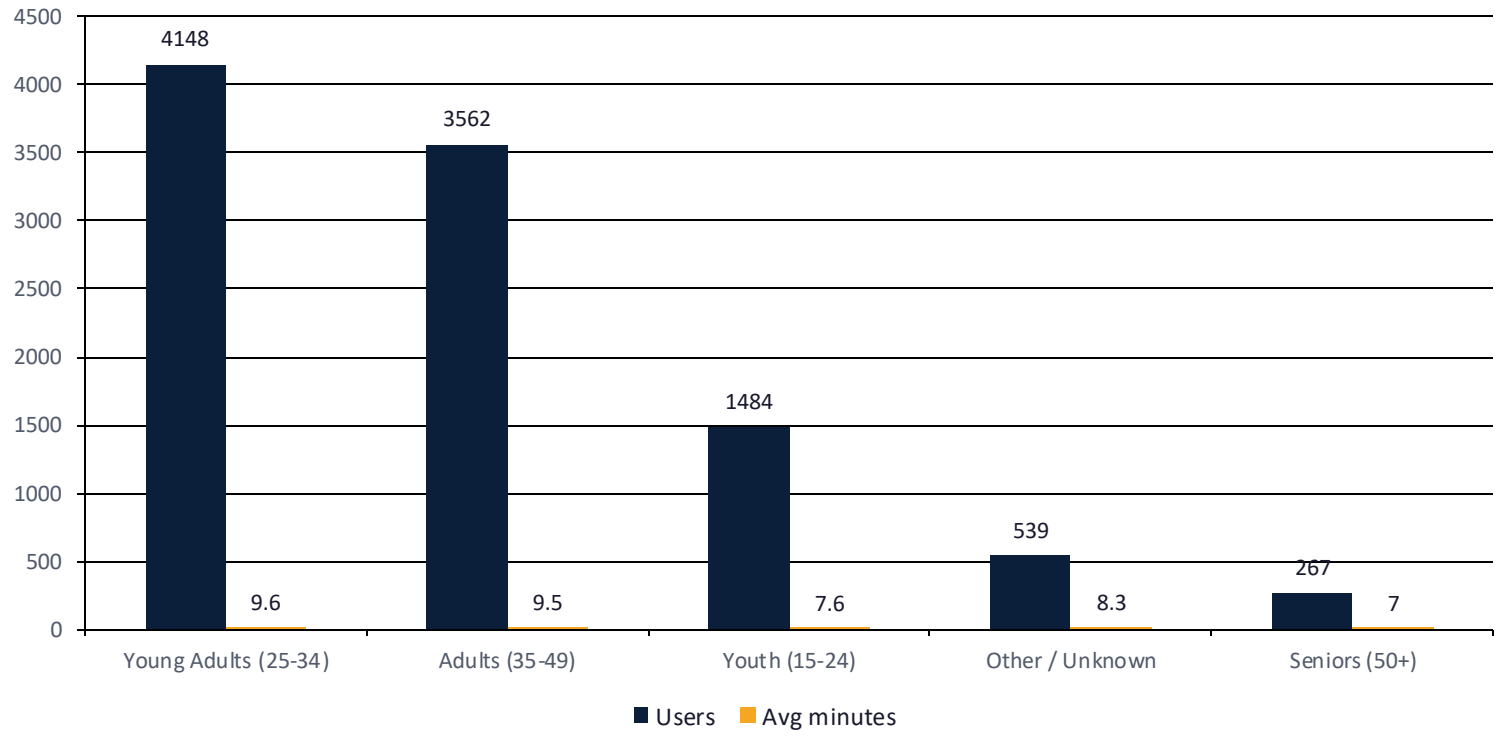
KEY INSIGHTS

- Viewing rises from 7am, plateaus 12h–20h, peaks at 17h (648 sessions).
- Late-night (00h–05h) collapses to <100 sessions — true off-peak.
- Two ramp moments: morning commute (7–10h) and lunch (12h).
- Off-peak is an opportunity for catch-up content & curated playlists.

05 · WHO

Age Segmentation

Age Segment — Users vs Avg Engagement



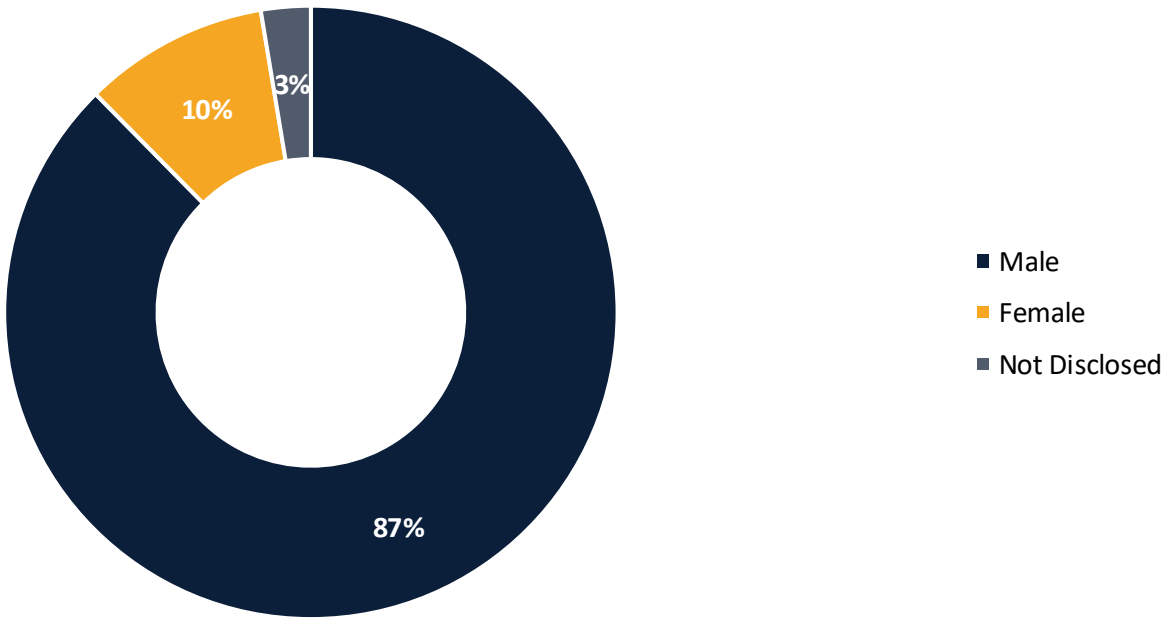
KEY INSIGHTS

- Young Adults (25–34) and Adults (35–49) = 77% of total users.
- Both top segments engage above platform average (>9.5 min).
- Youth (15–24) under-indexed at only 15% — growth headroom.
- Seniors (50+) = small & low engagement — deprioritise for now.

05 · WHO

Gender Distribution

Gender Distribution



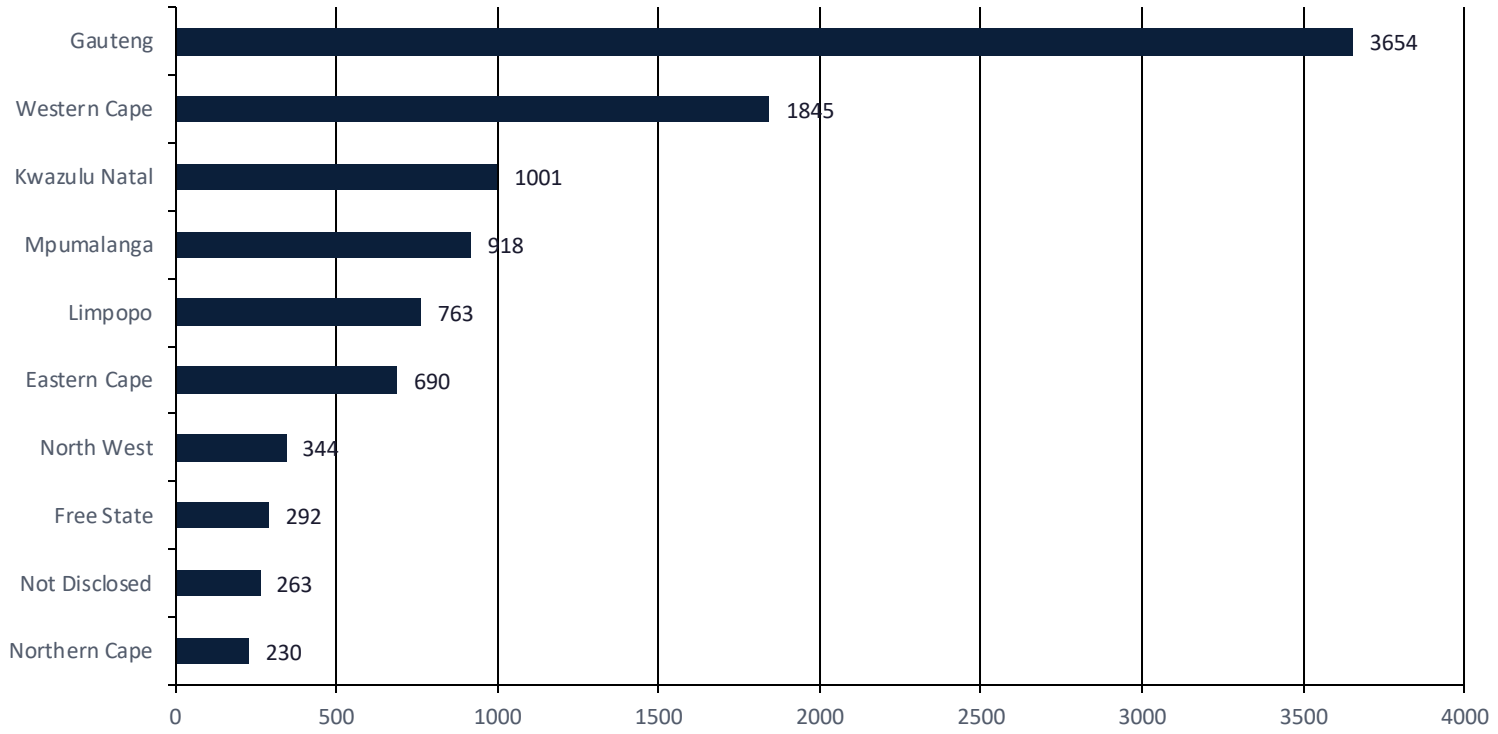
KEY INSIGHTS

- Male users dominate at 88% — sport-led catalogue creates a strong selection effect.
- Female users are under-served at just 10% — clear acquisition gap.
- 2.6% undisclosed signals onboarding friction in profile completion.
- Female-focused content & UX could unlock the largest untapped segment.

05 · WHO

Geographic Distribution

Users by Province



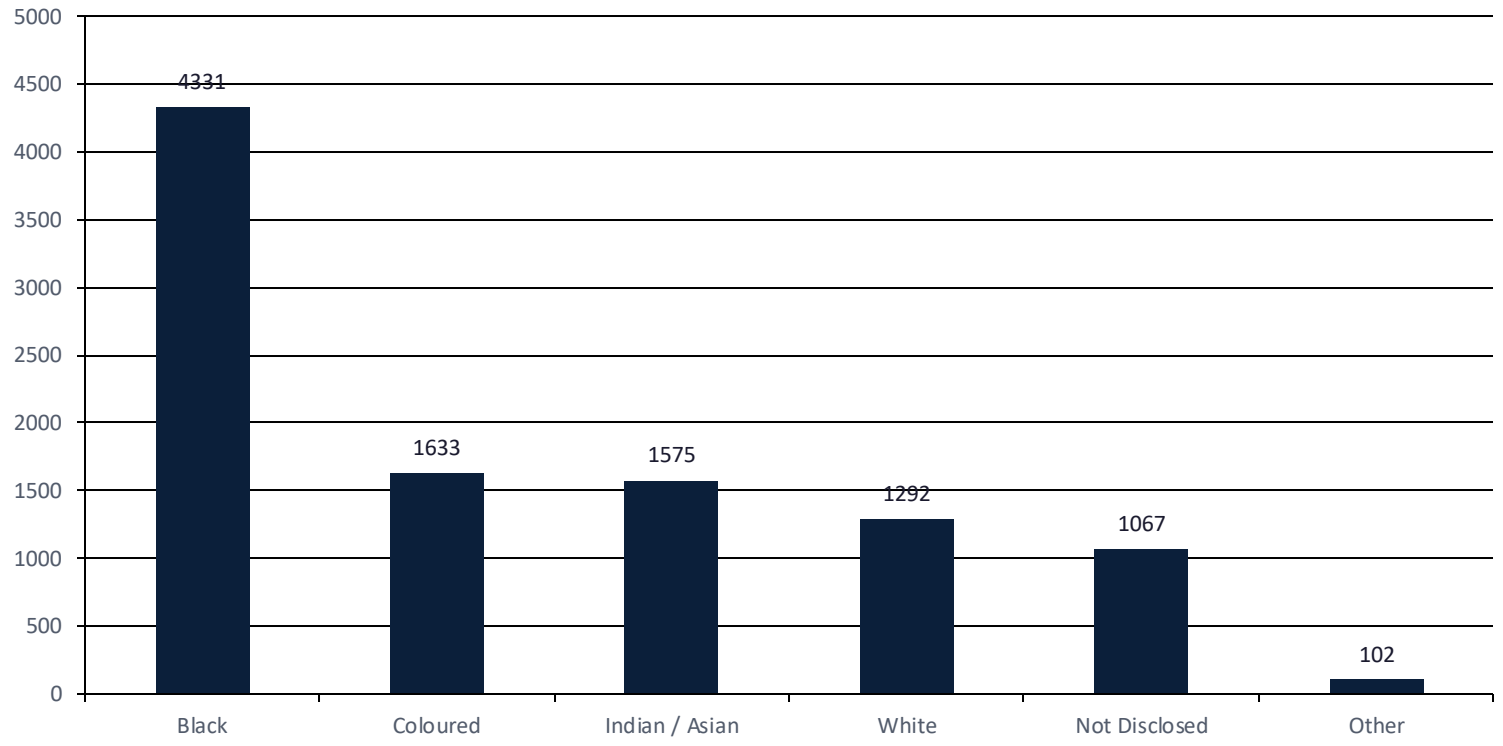
KEY INSIGHTS

- Gauteng (37%) and Western Cape (18%) = 55% of all users.
- KZN, Mpumalanga, Limpopo form a solid 27% second tier.
- Northern Cape & Free State are <6% combined — reach gap.
- Concentrated geo footprint: focus paid acquisition on top 3 provinces first.

05 · WHO

Race Group Composition

Users by Race Group



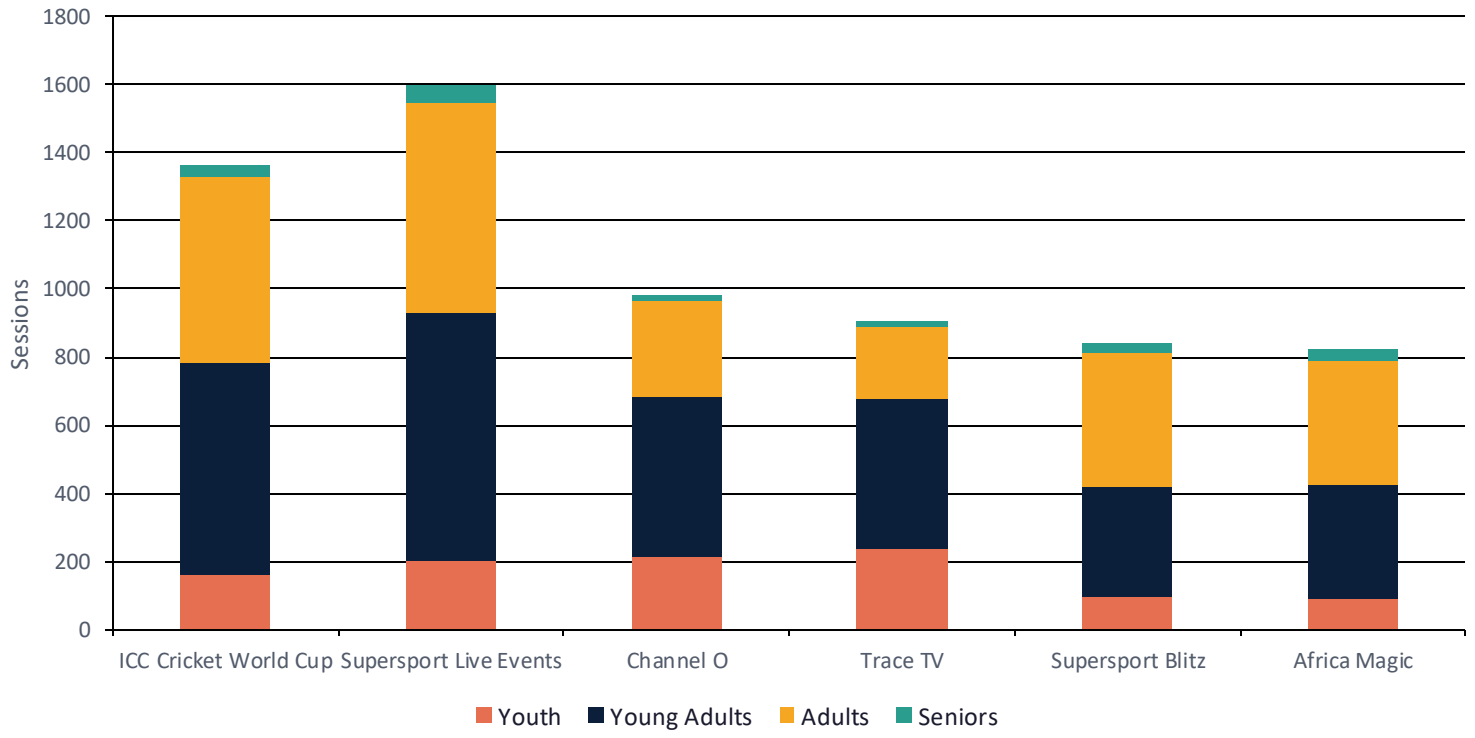
KEY INSIGHTS

- Black users represent 43% — the single largest segment.
- Coloured (16%) and Indian/Asian (16%) are equally weighted second tier.
- 11% undisclosed — incentivise profile completion to sharpen targeting.
- Use mix to validate culturally relevant content commissioning.

06 · CROSS-CUT

Content × Age

Top 6 Channels by Age Segment



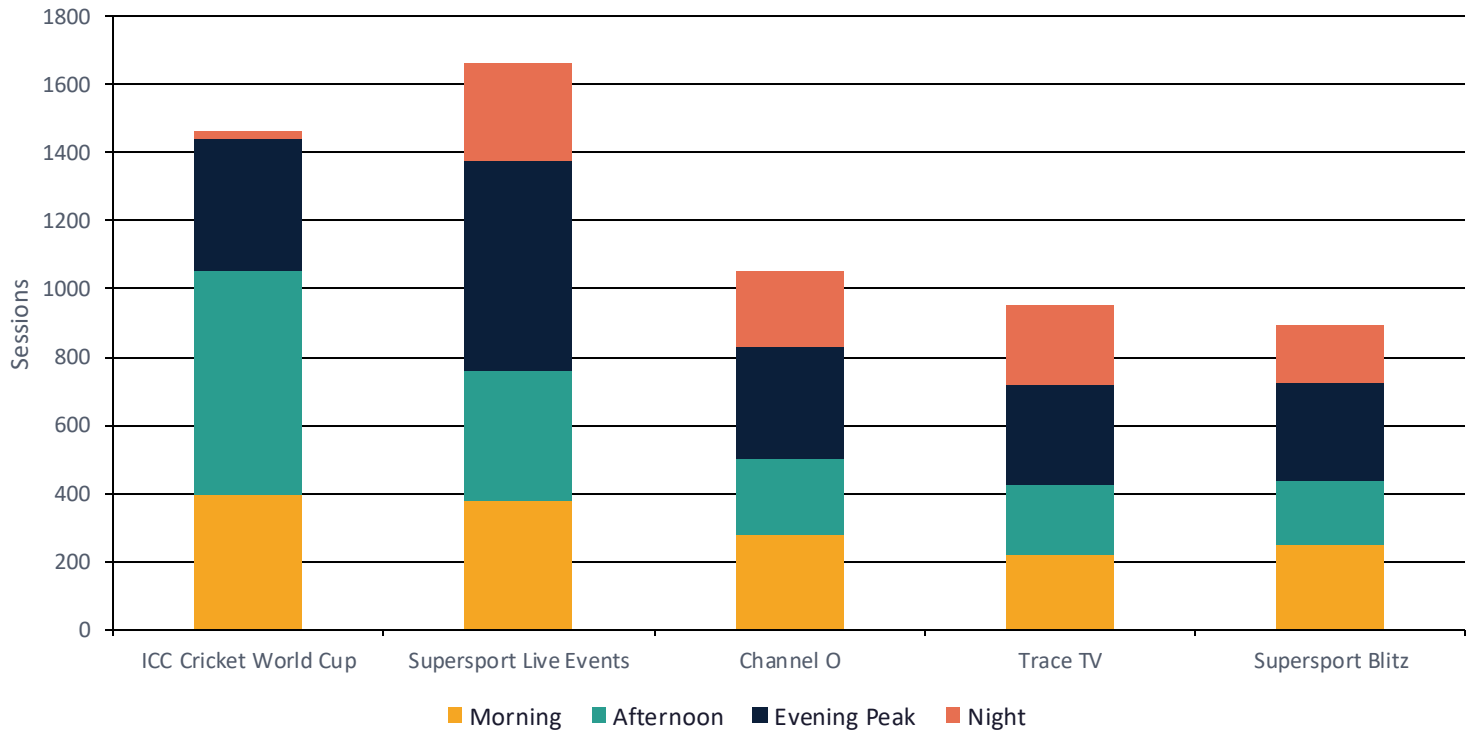
KEY INSIGHTS

- Trace TV & Cartoon Network skew youngest — Youth/Young Adult heavy.
- Supersport Blitz over-indexes on Adults (35–49) — premium ad target.
- ICC Cricket spans Young Adults & Adults — broadest age appeal.
- Use age-channel fit to personalise homepage rails per segment.

06 · CROSS-CUT

Content × Time of Day

Top 5 Channels by Time of Day



KEY INSIGHTS

- ICC Cricket peaks in afternoons — match-window driven.
- Supersport Live owns the Evening Peak — live event prime time.
- Channel O, Trace TV consistent across day-parts — durable inventory.
- Programme cricket in afternoons; reserve evenings for live sport & music.

07 · STRATEGIC PLAY

Strategic Recommendations

1

CONTENT STRATEGY

Double-down on live sport, broaden engagement

- Secure rights for cricket-style tentpole events.
- Test female-led & local-language content to widen the funnel.
- Refresh under-performing scale channels (e.g. Africa Magic).

2

CUSTOMER TARGETING

Segment & personalise the experience

- Default rails by age × time-of-day affinity.
- Build a 'Female Audience' acquisition campaign.
- Run profile-completion drive (16% undisclosed today).

3

RETENTION & ENGAGEMENT

Win the off-days and off-hours

- Programme premium drops on Mondays (weakest day).
- Curate 'After-Dark' playlists for 22h–05h shoulders.
- Push notifications tied to cricket fixtures & evening peak.

4

REVENUE OPTIMISATION

Monetise depth, not just reach

- Premium ad packages around Evening Peak (32% of sessions).
- Geo-targeted offers for Gauteng & Western Cape (55% of base).
- Reduce dependency on sport — diversify watch-time portfolio.
